

# HOTHEADS

Hot game. Hot profits.  
Hot smart contract.  
Play it like it's hot! 🔥

Hot Heads Game — is a game on Binance Smart Chain  
that allows you to get super profits in a short time

[hotheadsgame.io](https://hotheadsgame.io)

Insanely fast passive income  
from 200%

Free of work reward system

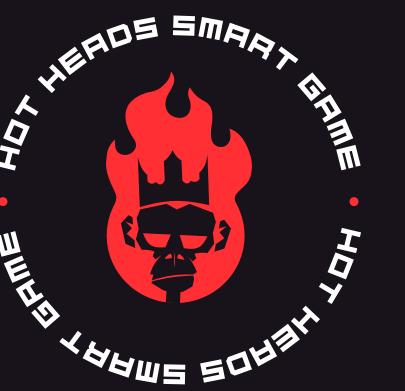

No need to freez your crypto

Our passionless smart contract  
is here to make you rich

# What is the Hot Heads Multi-Platform?

Hot Heads' main goal is the GameFi revolution.

Hot Heads offer the unique opportunity of getting huge profits in a really short time and all that playfully. Join us to create a new era of Play2Earn games.

This is a one life opportunity, don't miss it out  
and be the first to claim your winnings!

## HH Game

The algorithm of the smart game was developed by the informational and scientific support of the staff from the University of Haifa, Israel. The solution was specifically designed for large, stable and long-term income in the Hot Heads Game.

Smart contract audit

## HH Staking

Unique opportunity to increase gaming profits by staking the BNB token into the smart contract of the Hot Heads Platform.

## HH Token

The HHT utility token is the main currency of the Hot Heads Platform. You can find out more about it via our official news sources.

## HH Mini Game

Play in Hot Head's Game Platform Extension & earn your free BNB winnings

## HH NFT

HH Smart NFT is a product at the intersection of blockchain development, marketing & art.

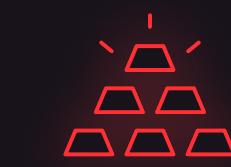

# The Hot Heads Game Introduction

The HOT HEADS game features a perfectly balanced algorithm that consists of 11 levels of Fireslots. Each level works as an independent, self-sufficient structure, while also maintaining a recirculation connection between levels. This functionality is created in order to ensure and unify the circulation of funds between all game levels. This way, more expensive levels create transactions for cheaper ones, while cheaper levels push the expensive ones forward.

**Each level has its own launch time. Levels will open starting from level 11 and up until level 1, respecting the time intervals outlined.**

**There are no restrictions on the amount of Fireslots one can buy on each level.**

\*\$USD's values are approximate, formulated based on the BNB exchange rate as per 2022.06.30

# How much will I make with the Hot Heads Game?

Each Fireslot you buy grants you 4 transactions of 50% of the Fireslot's cost.

The unique algorithm of transactions is built in such a manner that even if player B enters the game later than player A, player B still has a chance to get his transactions before player A, and vice versa.

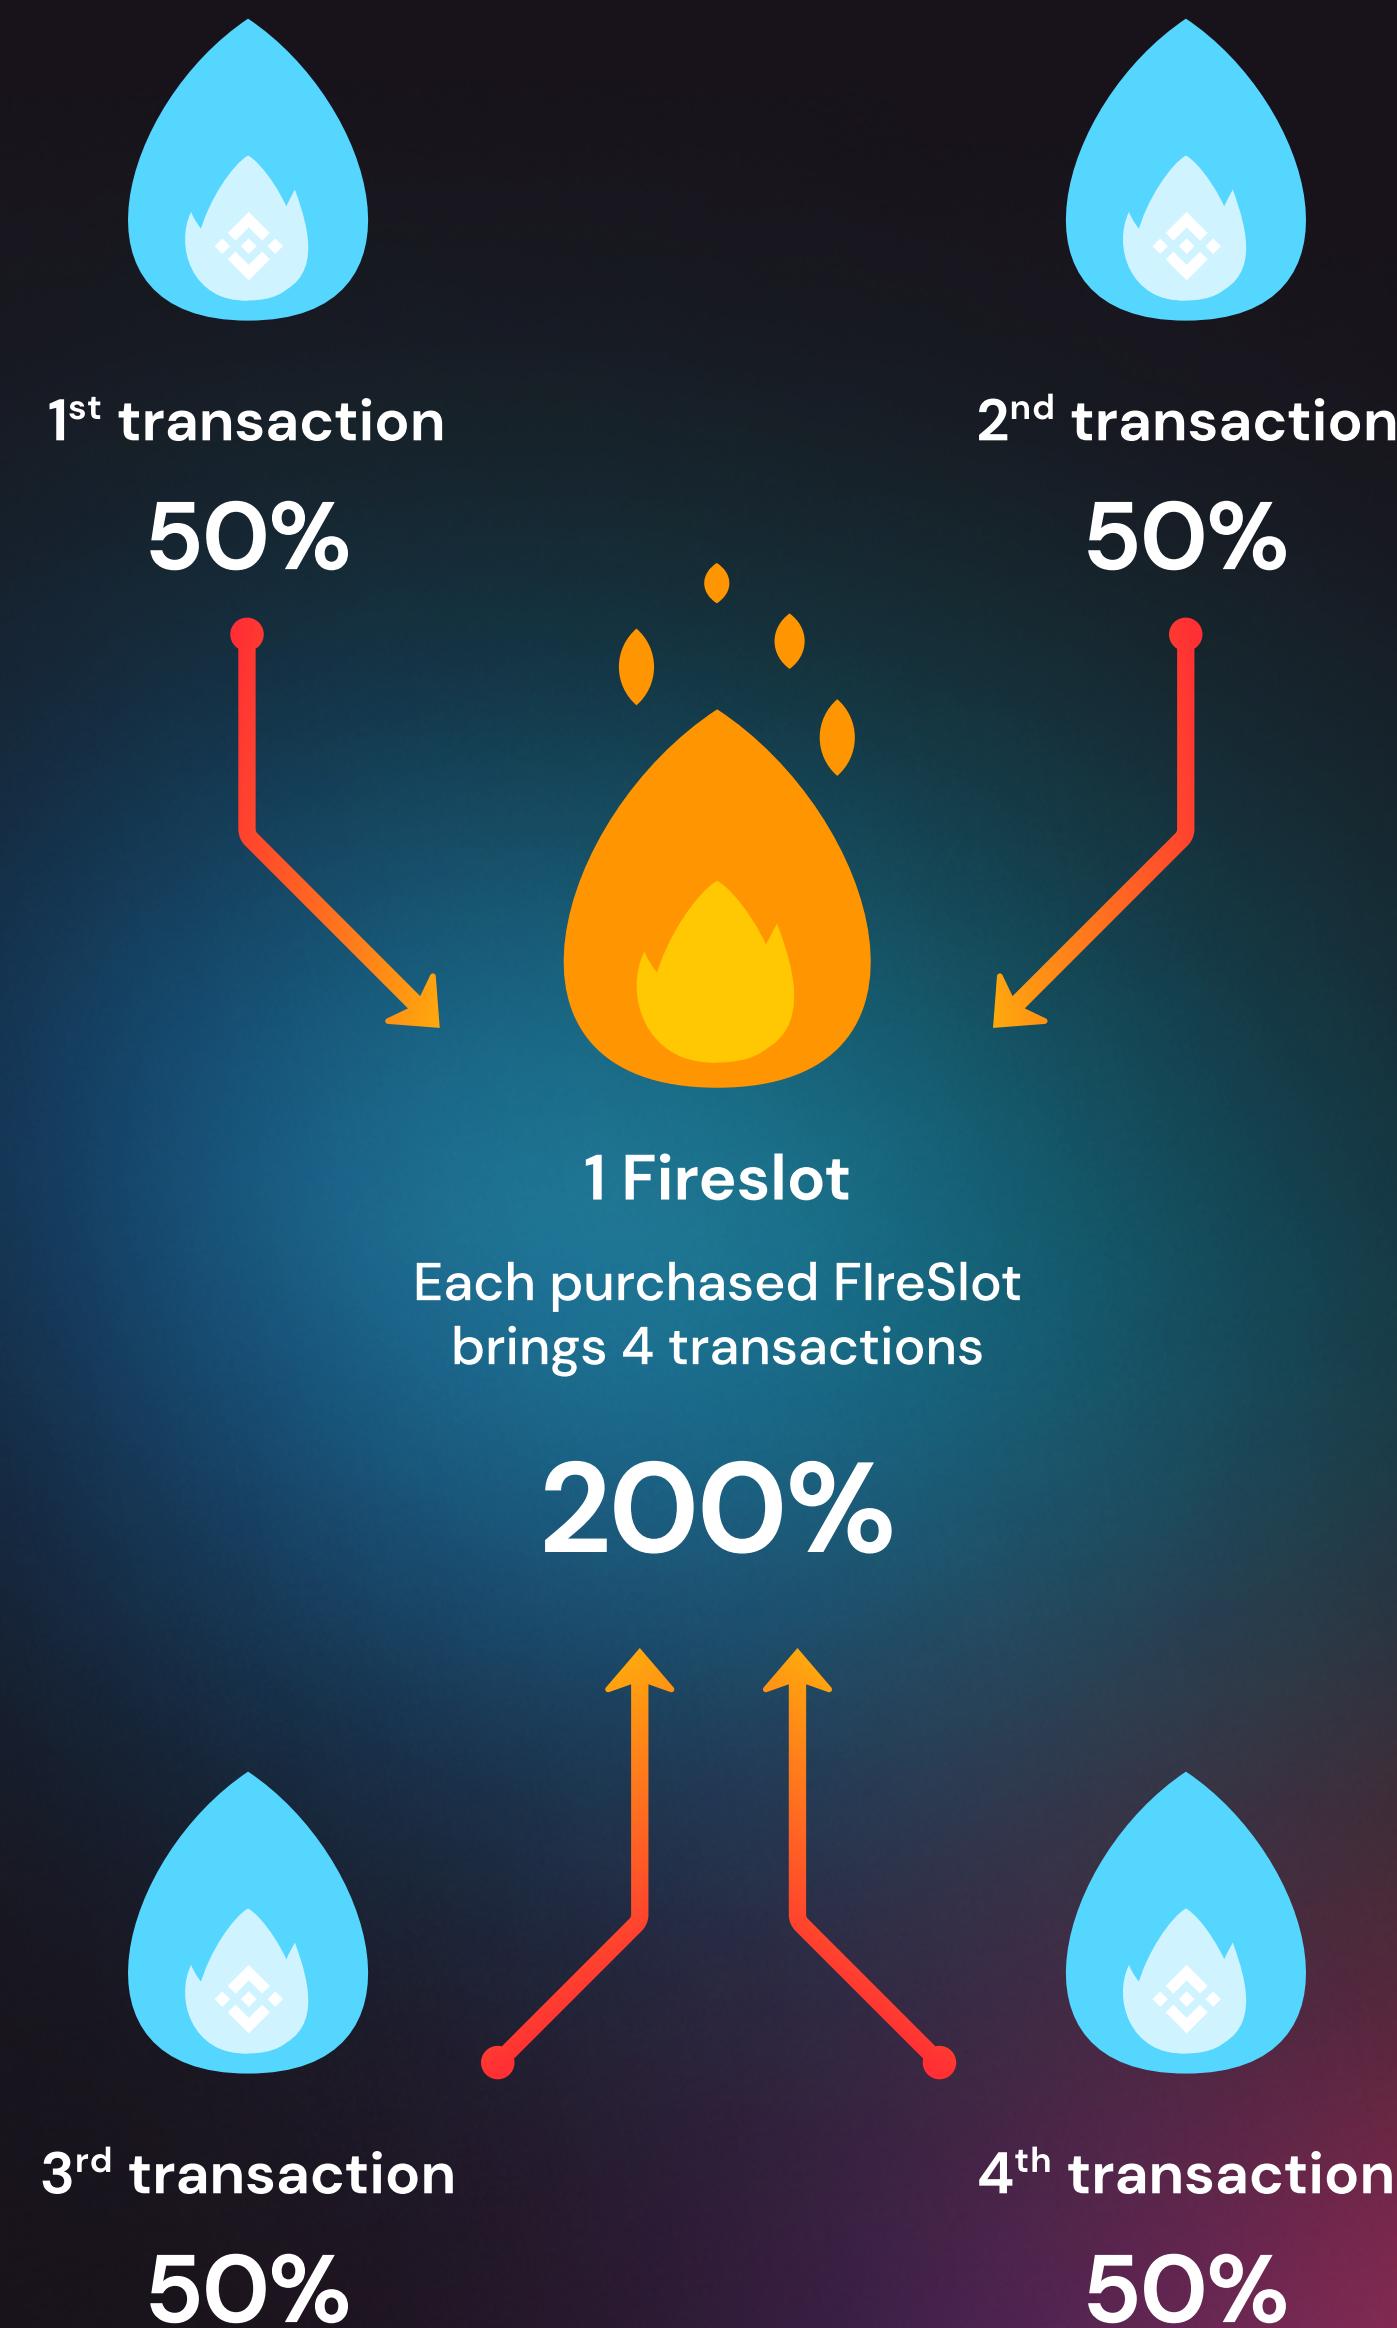

## Example

1<sup>st</sup> Step  
You buy a Fireslot number 10 for 1 BNB.

2<sup>nd</sup> Step  
Your wallet receives 4 transactions of 0.5 BNB = 2BNB  
Your profit — 200%

3<sup>rd</sup> Step  
After that your Fireslot fades out

4<sup>th</sup> Step  
If you have extra purchased FireSlots, they will be active until they also receive 4 transactions at 50% of the FireSlot's cost

# Yield Example

The HHG System does **not limit** you in profitability.  
How much and how fast you earn is entirely up to you.

Let's consider the example

Suppose you bought **3 FireSlots** for the amount **5 BNB**

2 BNB	2 BNB	1 BNB
↓	↓	↓
11 LVL	11 LVL	10 LVL
+200%	+200%	+200%

The profitability of each FireSlot is **200%**

According to the terms of the algorithm, you immediately start receiving transfers from the smart contract to your personal wallet.

You will receive until the total number of transactions reaches **10 ⚡**

After that the game is over, or you can buy more FireSlots & keep earning.

**Time to breakeven** and **Deadline for closing slots & receiving a yield of 200%**

↓  
from 1 hour after the start of HH Game

**Yield limits & Limits on the number of FireSlots**

↓  
**No**

# The Hot Heads Game Affiliate Program

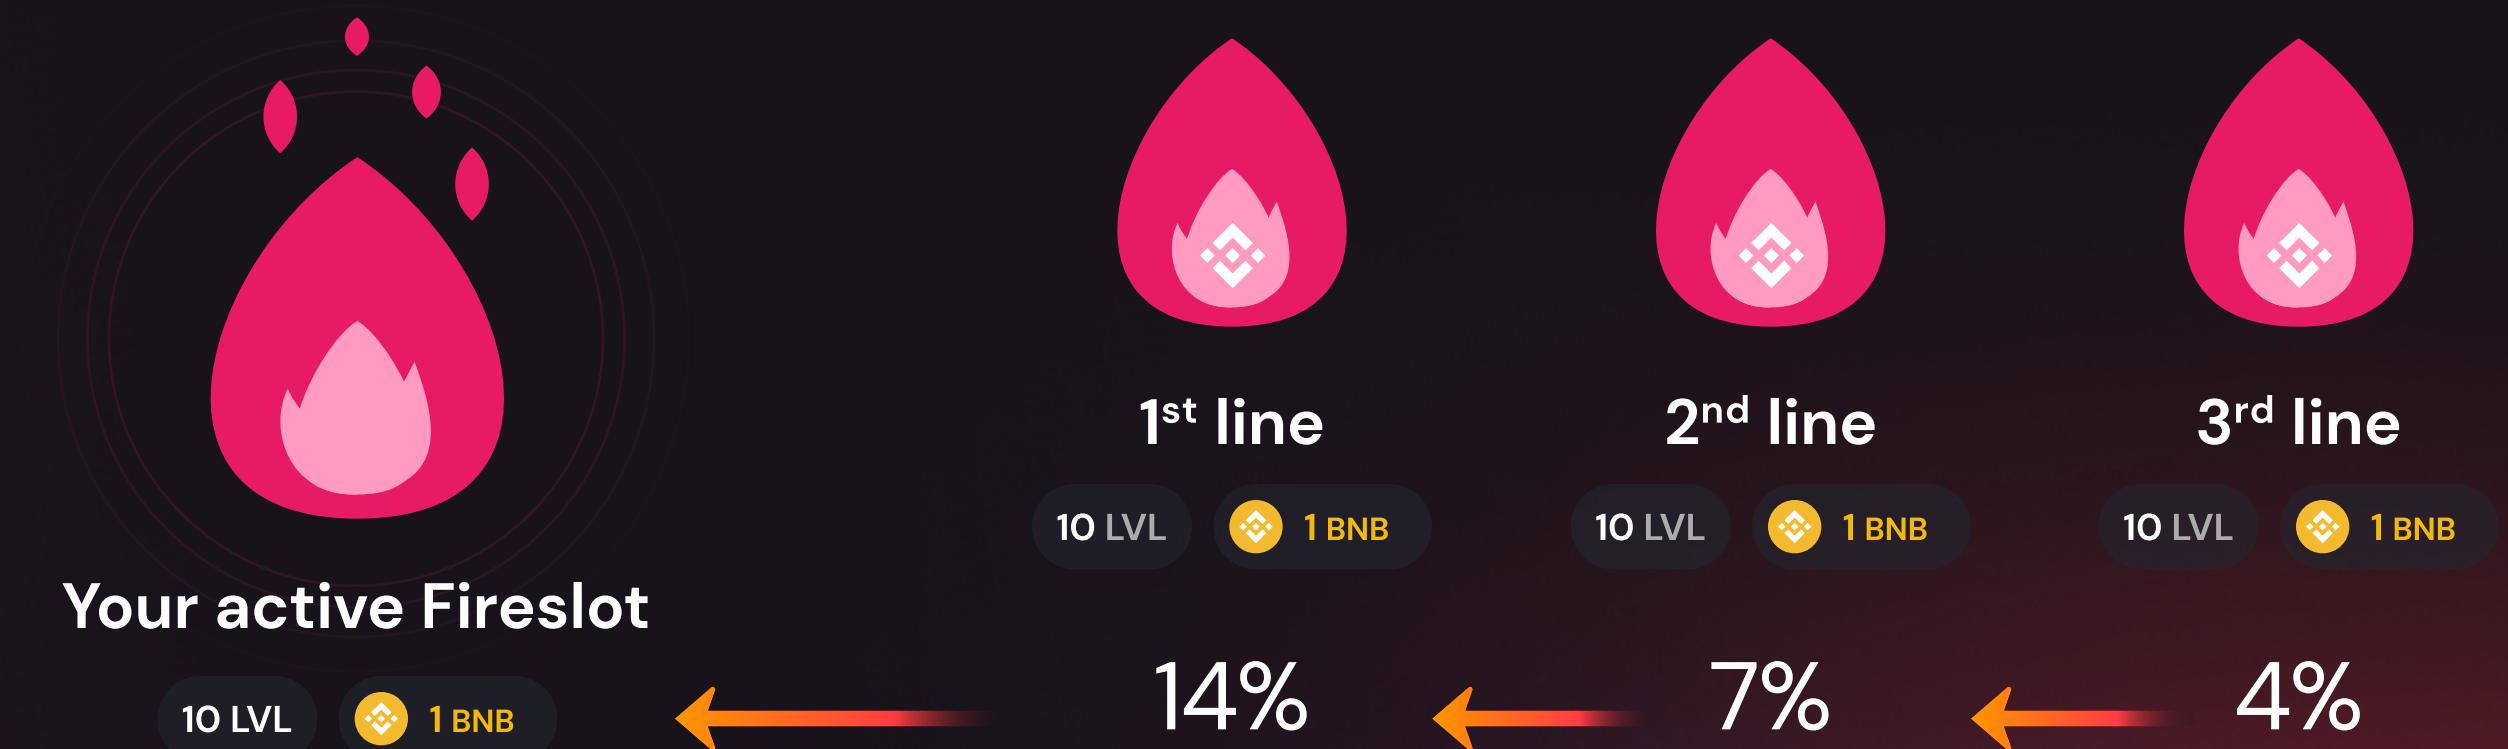

Are you active and used to reaching your goals? Awesome!

Hot Heads Game Affiliate Program  
is a great tool to meet your financial ambitions.

**25% of the cost of each purchased Fireslot  
is distributed between 3 referral lines**

Partner rewards go only to the **burning Fireslot** (active one)  
and are attached to a particular level of Fireslots.

If your referee has activated a more expensive Fireslot before you  
have, you will not get the reward. In this case, the reward goes to the  
user above you, who has the Fireslot of the same price category.

# More than \$20k in the first hours with HH Game. Easy!

**Suppose your media & social resources allow you to build a first line of only 50 people.**

**Let's also assume that your average purchase of fireslots is**

**Remember!** The reward from the 1<sup>st</sup> line is a stately 14% and we don't yet take into account the 2<sup>nd</sup> & 3<sup>rd</sup> lines.

# LET'S COUNT

# You

## 1st line

$$\text{50x} \times \text{1 BNB} \times 14\% = 7$$

With such a small structure, you received 35.5 BNB = \$8,5k  
and this is only the reward for the affiliate program of the game.  
Don't forget that you are also rewarded for staking.

And that is not all! Sum your income from your own FireSlots. As a result, with HH Game, you can earn from \$20k in the first hour after the system is launched, and this is a calibrated norm.

150 2<sup>nd</sup> line

$$\text{150x } \times \text{ 1 BNB } \times \text{ 7\%} = \text{ 10.5 }$$

Suppose each member of your 1<sup>st</sup> line invited **only 3 people** with an average entry of **1 BNB**.

**Remember for the 2<sup>nd</sup> line you get 7%  
There are 50 people in your 1<sup>st</sup> line**

150 3<sup>rd</sup> line

450x 3% fee  
× 1 BNB × 4% = 18 BNB

Suppose each member of your 2<sup>nd</sup> line invited **only 3 people** with an average entry of **1 BNB**.

**Remember for the 3<sup>rd</sup> line you get 7%  
There are 150 people in your 2<sup>nd</sup> line**

# Recirculation of transactions in the Hot Heads Game

## Transaction recycling

The HOT HEADS GAME transaction recycling algorithm is designed to ensure and unify the constant circulation of funds between all levels.

This algorithm includes two important functional systems.

## Push Up system

7.5% of the cost of a Fireslot is buffered by the smart contract until the minimum satisfactory amount is reached to purchase a Fireslot one tier ABOVE, allowing more expensive Fireslots to earn passive income. This makes buying more expensive levels more attractive.

## Push Down system

7.5% of the cost of a Fireslot is buffered by the smart contract until the minimum satisfactory amount is reached to purchase a Fireslot one tier BELOW, allowing cheaper Fireslots to earn passive income. This ensures a closed system of BNB movement from expensive to cheap slots and vice versa.

This creates a closed system of BNB circulation from the more expensive slots to the cheaper ones, and vice versa

10% of the Fireslot's price goes for platform marketing & development

# The Hot Heads Staking

By taking part in Hot Heads Staking, you not only get the chance to become the co-owner of the platform in the most secure way possible, but also open up an entirely new passive income stream, which enables you to get stable income in a comfortable manner.

Platform Profit **15%** of staking turnover 

## Hot Heads Staking Daily income **2%**

When a total profit of 300% of the initial amount staked is reached, the position is closed.

Stake range  
0.04 – 30 BNB

Daily income  
2%

Safety guaranteed  
by the  
smart contract

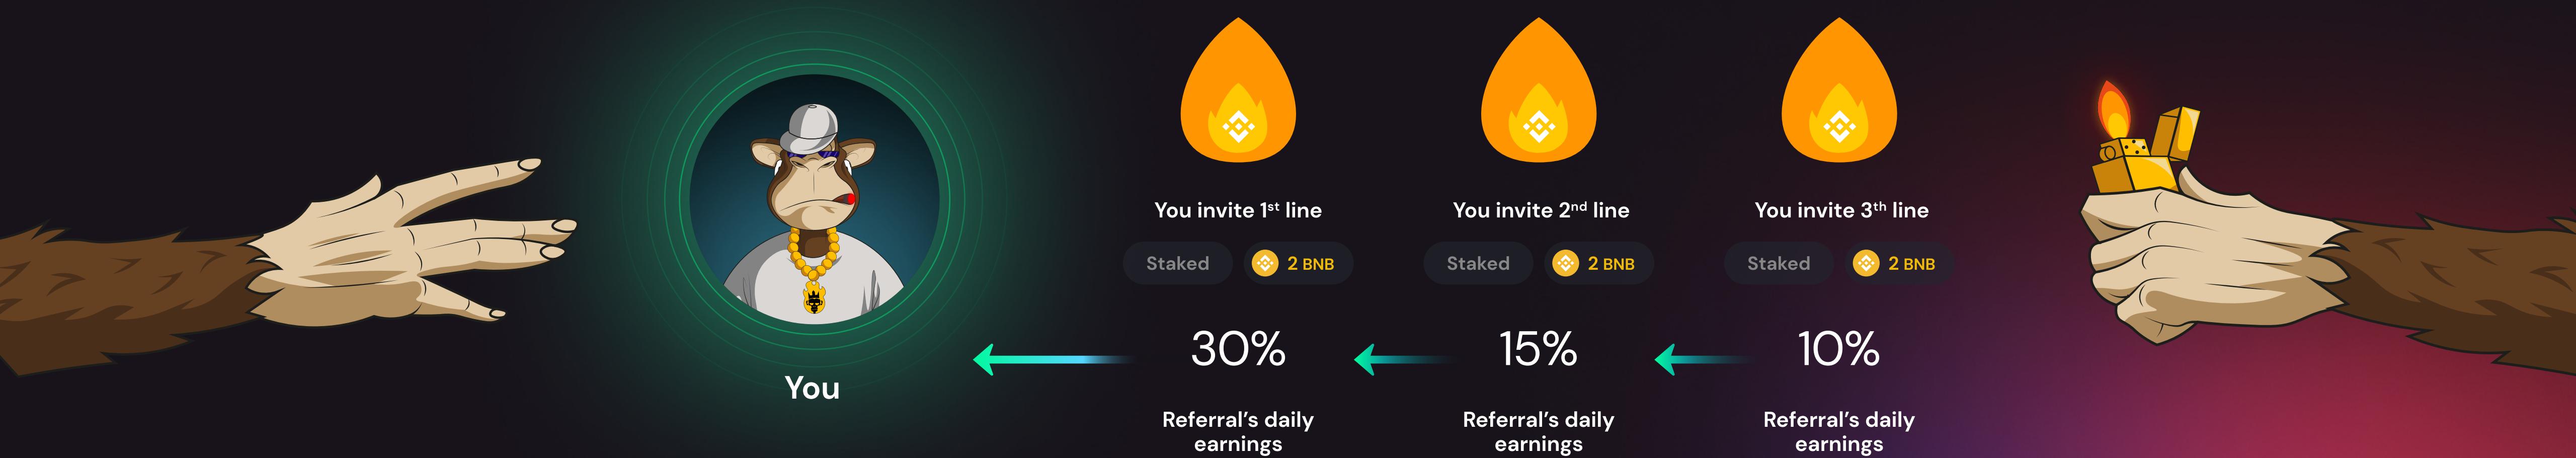

Possibility to  
reinvest at  
any time

Lifetime-long  
referral income  
from your partner's  
earnings

## Partner Reward Program

# Ready to Play?

## 1<sup>st</sup> Step

First of all, you must connect a wallet that supports the BSC smart chain. We highly recommend MetaMask.

On the web page... click "Connect Wallet".

How to install the MetaMask wallet and set it up to function on the BSC smart chain?

[Create wallet](#)

## 2<sup>nd</sup> Step

Click "Activate Personal Cabinet".

In order to activate your personal cabinet, you must buy a Fireslot or place the minimum required amount into staking.

Once one of these is done, your personal cabinet will become active.

Next time you will be able to execute all your actions and purchases directly from your personal cabinet!
